

I am very concerned how corporations are controlling the media and not allowing free expression, using media outlets for their own instead of the public's interest.

The bias of Fox News is legendary. Now Sinclair forcing stations to run propaganda without allowing any equal time for opposing points of view. This is a gross misuse of the public airwaves.

We MUST strengthen media ownership rules, i.e. not allow so much of media to be in the hands of the few. Our country is greatly suffering from current status quo.
